

Jamieson Wellness Inc.

Demonstrating Leadership in Environmental Sustainability and Social Responsibility

Demonstrating Leadership in Environmental Sustainability and Social Responsibility Policy Statement:

Jamieson Wellness Inc. has embraced in its operations a business practice that can help preserve and enhance a natural environment. The Company is guided by a conscience of logic and sincerity to follow three principles as it strives to not only maintain, but extend its environmental leadership in the natural health care products industry:

- i. Jamieson is committed to meeting all domestic and international environmental regulations and, to the extent practical, implementing initiatives that exceed government requirements;
- ii. Jamieson is committed to taking into consideration the impact on the environment when evaluating new products, packaging, technologies and operational procedures; and
- iii. Jamieson is committed to encourage conservation internally as well as externally through its business partner, supplier and customer relationships.
